## Description

30ml Waterless Hand Sanitiser. 75% Alcohol content. Please note stock is mixed and will be picked at random by our dispatch team, from a carton of Tropical Coconut & Aloe Vera fragrances.

It is important to use hand sanitiser on site due to the nature of construction work - often work is conducted

in dirty environments, and often without easy access to soap and running water. Using a convenient gel or liquid hand sanitiser means that employees can clean their hands on the go to limit the spread of germs and bacteria. This waterless hand sanitizer comes in a handy pocket sized 30ml bottle and can be kept in the site box, toolbox or work vehicle.

Jaybro supplies a range of larger hand sanitisers including pump packs, hands-free dispensers and bulk drums.
