

Boxed Edge Road Sign - Loose Stones

Product Images

Short Description

Class 1 Reflective sign with highly recognisable black car pictogram scattering loose stones and causing damage. This Loose Stones sign features a boxed edge, made from aluminium for strength and stability in tough roadwork environments.

Description

With a strong yet lightweight aluminium construction, this sign indicates Loose Stones with an easily recognisable black car diagram on high contrast safety yellow. Available in two sizes - 600mm x 900mm or 1500 x 900mm, this sign is perfect for road works and traffic applications where new road surfaces, loose gravel, loose asphalt or other rough hazards pose a risk to traffic.

Made from strong, durable Class 1 Reflective material, this pictogram sign offers good visibility throughout the day or night and helps to minimise damage caused by traffic travelling at speed during roadworks and construction. A square boxed edge offers extra stability in tough environments.

Jaybro carries a wide range of safety, construction, directional and traffic signs and we have over 9000 road signs in stock at all times. This sign is also available as a free-standing swing stand sign, in 900mm x 600mm or 1200 x 900mm sizes, with a yellow powdercoated steel tube stand. Complementary messages such as Traffic Hazard Ahead, Loose Surface and Rough Surface are also available.

Need a custom message sign? Jaybro is a leader in custom printed Class 1 Reflective signage that complies with day and night visibility requirements. Contact our customer service team for more information on custom printed signs.
