Product Images

Short Description

Nally MeagBin is made in Australia for Australian conditions. This bulk bin is capable of handling 780 litres or 500kg of product, and comes complete with steel tipping bars which allow you to rotate your Megabin.

Description

The Nally MegaBin® is the original Australian bulk bin. The Nally MeagBin® is made in Australia for Australian conditions. Easy, clear ownership identification with hot foil stamping, sequential numbering and barcoding. Handholds are built in for easy lifting and handling of bins. This bulk bin comes complete with steel tipping bars which allows you to rotate your Megabin. The positive interlocking foot design permits fast and safe stacking in both pallet racking and unit atop of unit.

Bulk storage bins are typically used for produce storage however they have a wide range of applications in the construction and civil sectors. Their plastic construction makes them markedly lighter than wooden or steel storage bins, and their forklift pockets make them an ideal addition to the work site to transport goods, supplies or rubbish around site. When full or empty, their positive interlocking foot design enables easy stacking and safer handling, saving space on the work site. In the warehouse or depot, the Nally bin is compatible with many other popular brands of pallet racking, enabling site supplies to be stored ready to go in a central warehouse or in a site storage container.
