

Nally Megabin 7810 Vented

Product Images

Short Description

Nally MeagBin is made in Australia for Australian conditions. This bulk bin is capable of handling half a tonne of product, and is stackable for compact storage on site.

Description

The Nally MegaBin® is the original Australian bulk bin. The Nally MeagBin® is made in Australia for Australian conditions. Easy, clear ownership identification with hot foil stamping, sequential numbering and barcoding. Handholds are built in for easy lifting and handling of bins. The positive interlocking foot design permits fast and safe stacking in both pallet racking and unit atop of unit. With multiple vents in the sides and base, this bulk bin allows superior airflow.

Bulk storage bins are typically used for produce storage however they have a wide range of applications in the construction and civil sectors. Their plastic construction makes them markedly lighter than wooden or steel storage bins, and their forklift pockets make them an ideal addition to the work site to transport goods, supplies or rubbish around site. When full or empty, their positive interlocking foot design enables easy stacking and safer handling, saving space on the work site. In the warehouse or depot, the Nally bin is compatible with many other popular brands of pallet racking, including Dexion, Schaeffer, Colby and Loscam pallet racking.

Features:

- Solid & vented bins available
- One piece construction
