

P2 Flat Fold Respirator with Valve, 10 Pack

Product Images

Short Description

Flat Fold P2 Face Mask Respirator with exhalation valved, supplied as a pack of 10. These simple masks have a vertical fold style and are individually packed.

Description

The P2 Flat Fold Respirator is valved for wearer comfort and features a convenient vertical flat fold design. Supplied in a box of 10 masks, this face mask conforms to AS/NZS 1716:2012. It is individually packed in hygienic packaging, making these masks ideal for easy carrying and storage. The latex-free head straps, adjustable nose clip and soft inner nose foam ensure that it is comfortable to wear for long periods. Plus, the addition of an exhalation valve reduces hot air build up and allows for easier breathing in hot and humid environments. With activated charcoal, this face mask offers relief from nuisance organic vapours (below WEL).

Protection against:

- P2 protection
- Nuisance organic vapours below workplace exposure limits

Features:

- Horizontal flat fold design
- Conforms to AS/NZS 1716:2012
