
Road Work Ahead (Class 1169) Corflute 600 x 600mm Multi message Sign

Product Images

Short Description

Road Work Ahead Queensland multi-message sign plate, measuring 600 x 600mm in size and manufactured from Corflute with a Class 1 reflective finish.

Description

Temporary road and traffic control signage with ROAD WORK AHEAD in bold black text on a reflective Yellow Background.

Designed to work within a Queensland multi-message sign frame system. 600 x 600mm Corflute sign with Class 1 reflective finish.

This multi message sign is for use in Queensland only, and is a cost effective solution to regulate and control traffic.

Corflute is a cost effective substrate for sign printing. Jaybro creates many styles of signage, including multi-message signs from Corflute.

Its lightweight construction and ease of handling makes it the perfect choice for short term usage. Corflute has proven very successful for use within MMS Frames and is the economical choice.

The weather resistant properties of Corflute allow for outdoor use without the print quality affected.
