

# SPF50+ Sunscreen - 1L Dispenser Pack

## Product Images

## Short Description

---

1L Dispenser pack of SPF50+ water-resistant sunscreen

## Description

---

Look after workers onsite with a hard wearing water resistant sunscreen. Pro Bloc sunscreen is the perfect all around sunscreen for tough days in the harsh Australian sun. This 1 litre pump pack covers everyone on site. Also available in 2.5L or a convenient 100mL tube for easy application on the go.

The workplace is a major source of solar UV radiation exposure for many adult Australians with outdoor workers having between five and ten times more sun exposure than indoor workers. Exposure to solar UV radiation is the cause of about 99 percent of non-melanoma skin cancers and 95 percent of melanoma in Australia. Although it is always best to try and use the hierarchy of workplace controls to manage this hazard, it's often not possible to move the work inside or simply get out of the sun. In this case, PPE is required which includes sunscreen. Workers should use a sunscreen with a SPF of 30 or higher that is broad-spectrum, meaning it filters UVA and UVB radiation and is water resistant. Lips should also be protected with a lip balm containing SPF 30 or higher.

- ProBloc SPF50+ sunscreen
- 4hr water resistant
- Featuring dry touch technology for a light natural skin feel
- Skin friendly with moisturizing Vitamin E
- Nanoparticle free
- Made in Australian for our harsh conditions
