

Hinged Mounting Pole for CCTV

Product Images

Short Description

Deliver surveillance to any location with this quick-installation, transportable, solar-pole mounting solution. This mounting pole / post is designed for the SSL-B Series solar street lights and SLR-B Series surveillance systems. [Fits into the 03-SLRPOLCNC concrete block base](#). Camera and solar panels sold separately.

Description

This 4.5 metre tall hinged galvanised pole is designed to work with the free-standing concrete mount and SSL-B & SLR-B Series solar CCTV systems.

Deliver surveillance to any location with this quick-installation, transportable, solar-pole mounting solution. This mounting pole / post is designed for the SSL-B Series solar street lights and SLR-B Series surveillance systems, so that you can quickly and easily install standalone solar powered CCTV, security cameras and lighting to areas without power or network infrastructure.

Benefits:

- No more ladders or working at heights with hinged pole
- Delivery and installation options available in the Sydney Metropolitan area
- Assembled or unassembled order options available
- 4.5 metre tall galvanised post

The freestanding security camera mount comprises separate components:

- Camera and solar panels

- 4.5m hinged galvanised pole
 - Heavy duty concrete base with steel reinforcement cage for extra strength
- Each of these components is sold separately**
