

# Complete Imex Dumpy Kit with Tripod and Stave

## Product Images

## Short Description

---

A complete dumpy kit for surveying. Includes a high-quality Imex LAR28 level, dumpy tripod and 5m stave.

## Description

---

This dumpy kit is ideal for general surveying purposes. With fully sealed steel housing for all weather protection and high magnification, the Imex LAR28 is a robust and reliable auto level. Its magnetic damping compensator ensures good stability in any conditions, and it's large LCD display and 28x magnification make it an essential piece of equipment for surveyors. It is automatically self-leveling and IP68 rated for weather resistance. The Imex brand is synonymous with accuracy and efficiency. Identifiable by the unique green high-vis casing, this Imex level comes with a long warranty, long service and long calibration intervals.
