Product Images

Short Description

High voltage danger signage. Choose from the drop down menu below to select the sign you require. Extremely durable signage, suitable for indoor and outdoor use.

Description

Danger sign with the text - High Voltage. Choose from a range of sizes and materials to find the sign that suits your requirements. Promote a safer working environment by displaying adequate danger signage.

This sign acts as a visual warning when a particular situation can cause extreme harm or result in death. Designed to alert employees and visitors of dangers that exist in the location or in the work being carried out.

Displaying adequate safety signage will identify and warn workers of potential hazards in the workplace. Used to communicate important instructions and reinforce safety.

messages and provide instruction for emergency situations. Australian & New Zealand businesses have an obligation under Health & Safety legislation to use appropriate signage where applicable.

Ensure your meeting WH&S obligations by identifying hazards or hazardous situations with the relevant danger signage.

Danger signs are black and red and produced as either a vinyl sticker, metal, Corflute or polypropylene signs in a variety of sizes.

AS 1319:1994 outlines specific requirements for the design and use of safety signs. Intended to regulate and control safety related behaviour in workplaces, warn of hazards and to provide emergency information to workers and the Public.
